

Day 4 Internship Report

Internship Program: Frontend Development

Internship Company: ProSensia

Name: Hamza Rafique

Date: 26-6-2025

Internship Platform: Scrimba

Project Hosting: Live on Netlify: https://lnkd.in/gsx_Cgkj

Task Description:

Today, I worked on a project as part of the Scrimba frontend development course during my internship with ProSensia. The project was completed and deployed live on Netlify, showcasing my ability to build and host a functional web application.

Activities Performed:

- Completed a hands-on frontend project using HTML, CSS, and JavaScript.
 - Resolved layout and responsiveness issues.
 - Deployed the project to Netlify through GitHub integration.
 - Verified live deployment across devices.
-

Skills Practiced:

- HTML5/CSS3
 - JavaScript (DOM manipulation)
 - Responsive design
 - Git & GitHub
 - Netlify deployment
-

Outcome:

The project is successfully deployed and accessible online via Netlify. This demonstrates my grasp of both frontend development and deployment skills.

Reflection:

Today's experience enhanced my understanding of frontend workflows and gave me practical exposure to project deployment using modern tools. I feel more confident about hosting and maintaining frontend applications.
